

ALTERNATIVE ENERGY SOURCES

Material/Product Technology

- **Skill Development** (practical exercise to use machinery safely)
- **Skill Development** – Self Assessment sheet (get students to reflect)
- **Tech cycle** (then apply this to real world situation)
- **Introduce Issue / Class Brief**
- **Stakeholder Profile**
- **Initial Brief**
- **Time Planning**
- **History** (social links and influences) (weather vanes versus weather stations)
- **Research existing solutions** (evaluation)
- **Needs/Opportunities** – overview specs
- **Presentation of Drawing / Concepts**
- **Development / mock-ups** (evaluation)
- **Materials research**
- **Final Brief/Specs**
- **Working Drawing / Construction Flow Chart**
- **Manufacturing**
- **Self Assessment Sheet on Skills**
- **Photo/evaluation** (A3 card sheet)
- **Assessment**
- **(Small unit as extension work)**
- **Glossary of Terms**

PLANNING

Knowledge and Skills *

we would like to see from students

- KNOWLEDGE** *
- **Structures**
 - **Simple Machines**
 - **Mechanisms**
 - **Types of motion**
- } Touch on to make students aware and to show examples.
-
- * • **Materials – teach materials and properties**
 - i.e. - availability
 - cost
 - stock sizes
 - ease of working
 - aesthetics
 - the right material for the job
 - how well it will last
(properties/characteristics/appearance)

 - * • **Alternative energy**
 - the requirements of society today
 - why the need and future trends
 - have a focus on wind energy
-
- SKILLS** *
- **Must cover from Year Nine**
 - marking out
 - cutting out
 - and finish
- } hand tools
-
- **More processes need to be:**
 - Welding**
 - oxy-acetylene – brazing
 - brace welding
 - electric (ARC) welding (MIG)

 - Machining**
 - centre lathe work
 - machines
 - power cutting
 - grinding/sanding
 - drilling

1. • Introduction to Unit • Safety (gas and machines) • Video (safety)	2. • Safety Booklet for Display Board 	3.	4.
5. • Structure and Mechanisms	6.	7. • Skills Development Project (Balancing Toy)	8.
9. • Relate Product to Technology Cycle	10.	11.	12.
13.	14. • Recap - marking out - cutting out - finishing and machine use	15.	16.
17.	18. • Teach Skills - Brazing/welding - Machining (centre lathe)	19.	20.
21.	22.	23.	24.
Workshop			
25.	26.	27.	28.
29.	30.	31.	32.
33.	34.	35. • Evaluation of project • Formative assessment • Self assessment	36.
37. • Project 2 (main project) • Teach Tech Cycle • Example – clickview	38. • Introduction Issue/Brief • Stakeholder's profile • Finish – homework.	39. • Initial Brief • Planning (GANT)	40. • Research

41.	42. • Needs/Opportunities • Specs (what are they?) • Overview specs • Stakeholder's needs	43. • Drawing/Sketching • Techniques	44.
45. • Concepts	46. • Development	47. • Mocking-up • Templates	48. • Evaluation • Fitness for Purpose • Stakeholder Feedback
49. • Working Drawing • Formal, half scale	50.	51. • Final Brief • Specifications • Construction Flow Chart	52. • Concepts
53. • Workshop	54.	55.	56.
57.	58. • Study on Material and Testing	59.	60.
61.	62.	63.	64.
65.	66. • Study on Alternative Energy (Homework)	67.	68.
69.	70.	71.	72. • Finishing off (painting skills)
73.	74.	75. • Presentation / Photo Board	36.
77.	78. • Assessment • Student report back to class.	79. • - Extra – Glossary of Terms - students produce word search.	80.

Lessons 1 – 8

Lesson Sequence	Resources	Learning Intentions
<p><u>Introduction to Course</u></p> <ul style="list-style-type: none"> • Talk about two term format • Main topic being Material Technology with alternative energy focus (knowledge of societal) 	<ul style="list-style-type: none"> • Term One Student Booklet • Clear folders 	<ul style="list-style-type: none"> • To give clear overview of unit and intentions.
<p><u>Safety</u></p> <ul style="list-style-type: none"> • Recap on safety in workshop (general) • Show video on safety • Focus on gas/electric welding and machines • Students produce safety pamphlet for storyboard Term 2. 	<ul style="list-style-type: none"> • Workshop equipment and processes • Hand-out on Safety • TV/DVD • Example of layouts – hand-outs 	<ul style="list-style-type: none"> • Students aware of surroundings and dangers that lie within. • Understand each student responsible for own actions. • Tech toy techniques.
<p><u>Structures and Mechanisms</u></p> <ul style="list-style-type: none"> • Teach structures • Simple machines • Mechanisms • Types of motion. 	<ul style="list-style-type: none"> • Overheads for structures • Hand-outs and worksheets for rest. 	<ul style="list-style-type: none"> • To gain awareness of structures and mechanisms and how simple machines work.
<p><u>Introduce Skill Based project (Balancing toy)</u></p> <ul style="list-style-type: none"> • Introduce Technology Cycle and Project • Talking to project re cycle (balancing toy) 	<ul style="list-style-type: none"> • Hand-outs tech cycle • Work booklet Project 1 	<ul style="list-style-type: none"> • For them to learn skills required to take through to Year 11, Level 1.

YEAR 10

ALTERNATIVE

Lessons 9- 65

Lesson Sequence	Resources	Learning Intentions
<ul style="list-style-type: none"> • Research existing solutions from booklet • Teach Design Process (cycle) • Develop their own solution. 	<ul style="list-style-type: none"> • Booklet • “ • “ 	<ul style="list-style-type: none"> • Design Process • Students come up with own designs
<p>Skills Development</p> <ul style="list-style-type: none"> • Recap marking out, cutting and finishing techniques • Teach brazing, machining 	<ul style="list-style-type: none"> • Hand-outs / demonstrations • Gas plant and machines 	<ul style="list-style-type: none"> • Students able to braze and machine correctly and safely and apply to their own project.
<p>Evaluation of Project</p>	<ul style="list-style-type: none"> • Evaluation sheet. 	<ul style="list-style-type: none"> • To give feedback to the student and teacher.
<p>FINISH STAGE 1, TERM 1</p>		
<p>STAGE II</p> <p style="text-align: center;">Technology Cycle off Computer</p>		
<p>Materials Study</p> <ul style="list-style-type: none"> • Teach materials and properties 	<ul style="list-style-type: none"> • Hand-outs and worksheets 	<ul style="list-style-type: none"> • To gain an awareness of types of materials and properties and then uses in everyday life.

Lessons 66 - 80

Lesson Sequence	Resources	Learning Intentions
<u>Alternative Energy Sources</u> <ul style="list-style-type: none"> • Types of energy used today. • Brainstorm types of energy • Awareness of effects on society • Effects on the environment and society. 	<ul style="list-style-type: none"> • Hand-outs and chalk and talk • Homework (A4 case study) • Hand-outs. Homework. 	<ul style="list-style-type: none"> • Student to understand energy sources • Tell us what they are • Explain this (what are the effects?)
<u>Finishing Techniques</u> <ul style="list-style-type: none"> • Types – focus on Painting Techniques - preparation/techniques/masking/waste/storage techniques. 	<ul style="list-style-type: none"> • Hand-outs • “ 	<ul style="list-style-type: none"> • Students able to understand and apply techniques of material protection to their own project.
Presentation Board		
<u>Extra</u> <ul style="list-style-type: none"> • Glossary of Terms 	<ul style="list-style-type: none"> • Word Search 	<ul style="list-style-type: none"> • Learn technological language.
