

Pet Scrubber

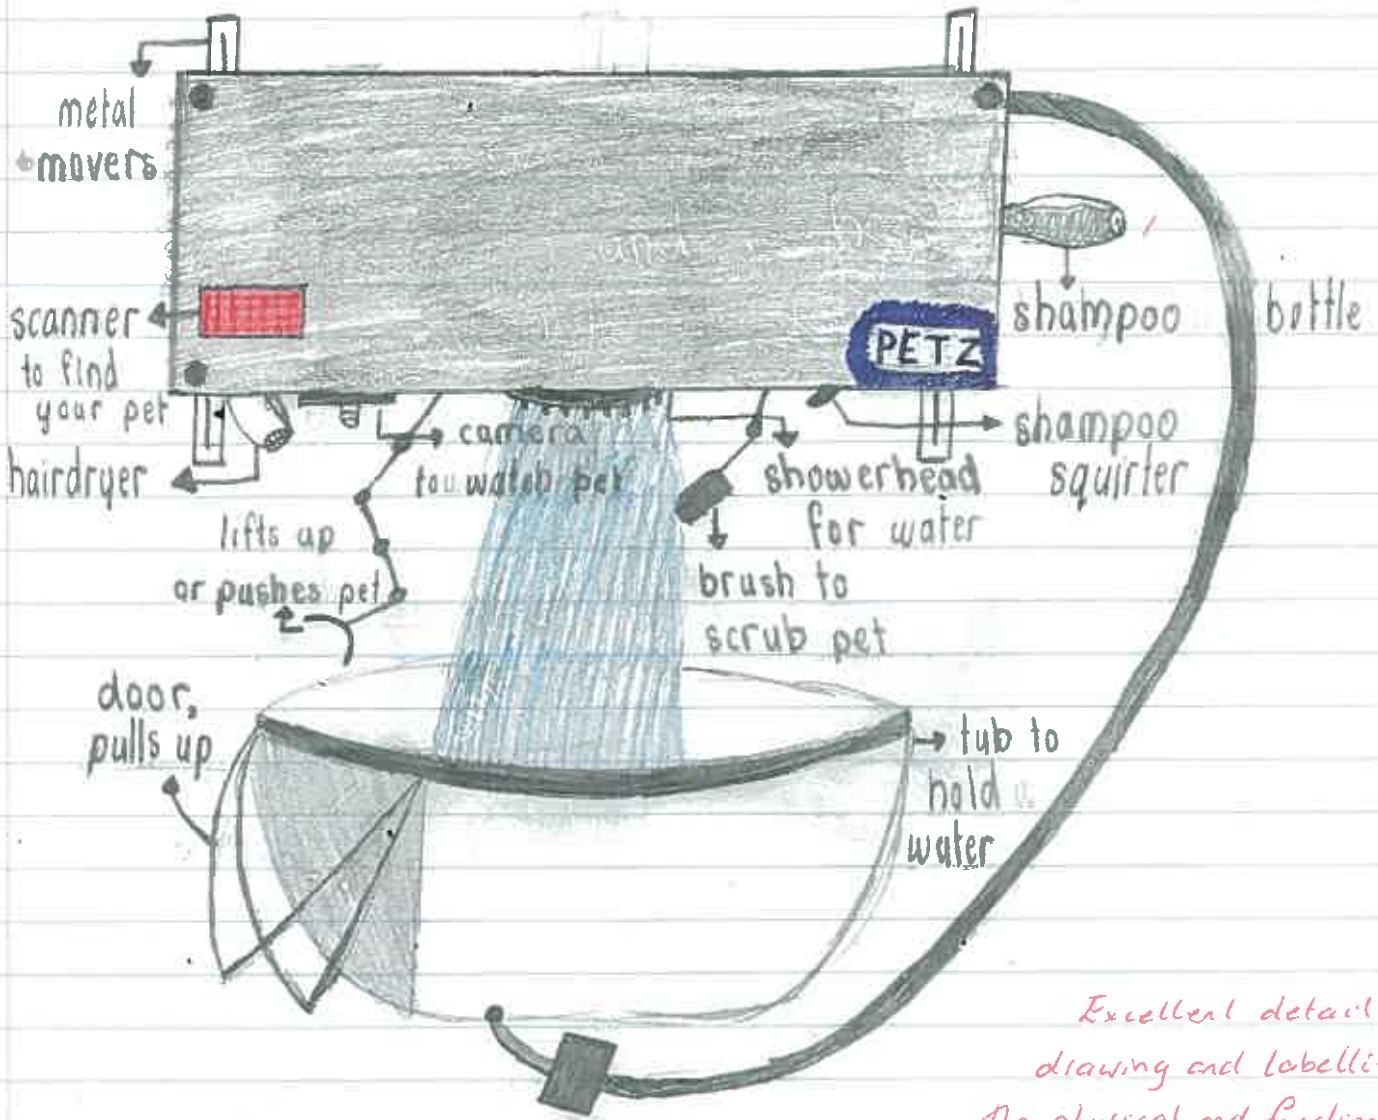

Come to Pet Machinery to get your all new Pet Scrubber. It scrubbies your pet until their ^{hairs} squeaky clean. No trouble moving it around for it sticks to the wall and moves up and down. It is 50cm wide and 30cm tall. You use your remote to work it, just press the 'on' button and pick up or urge button. First it scans the area to find your pet. Secondly it picks up or urges your pet to the door. After that the door is closed and the tub fills up with water and some soap squirts out too. Finally they scrub your pet with a brush, empties the tub and lets the pet out. "The Pet Scrubber is environmentally friendly" for it reuses the water but cleans it first. "The tremendous Pet Scrubber is only \$71.99 and I guarantee it will be worth it. In addition to that it come with a 10 year warranty so come get your pet Scrubber now."

Where do we buy it from?

Excellent idea about cleaning and reusing the water.

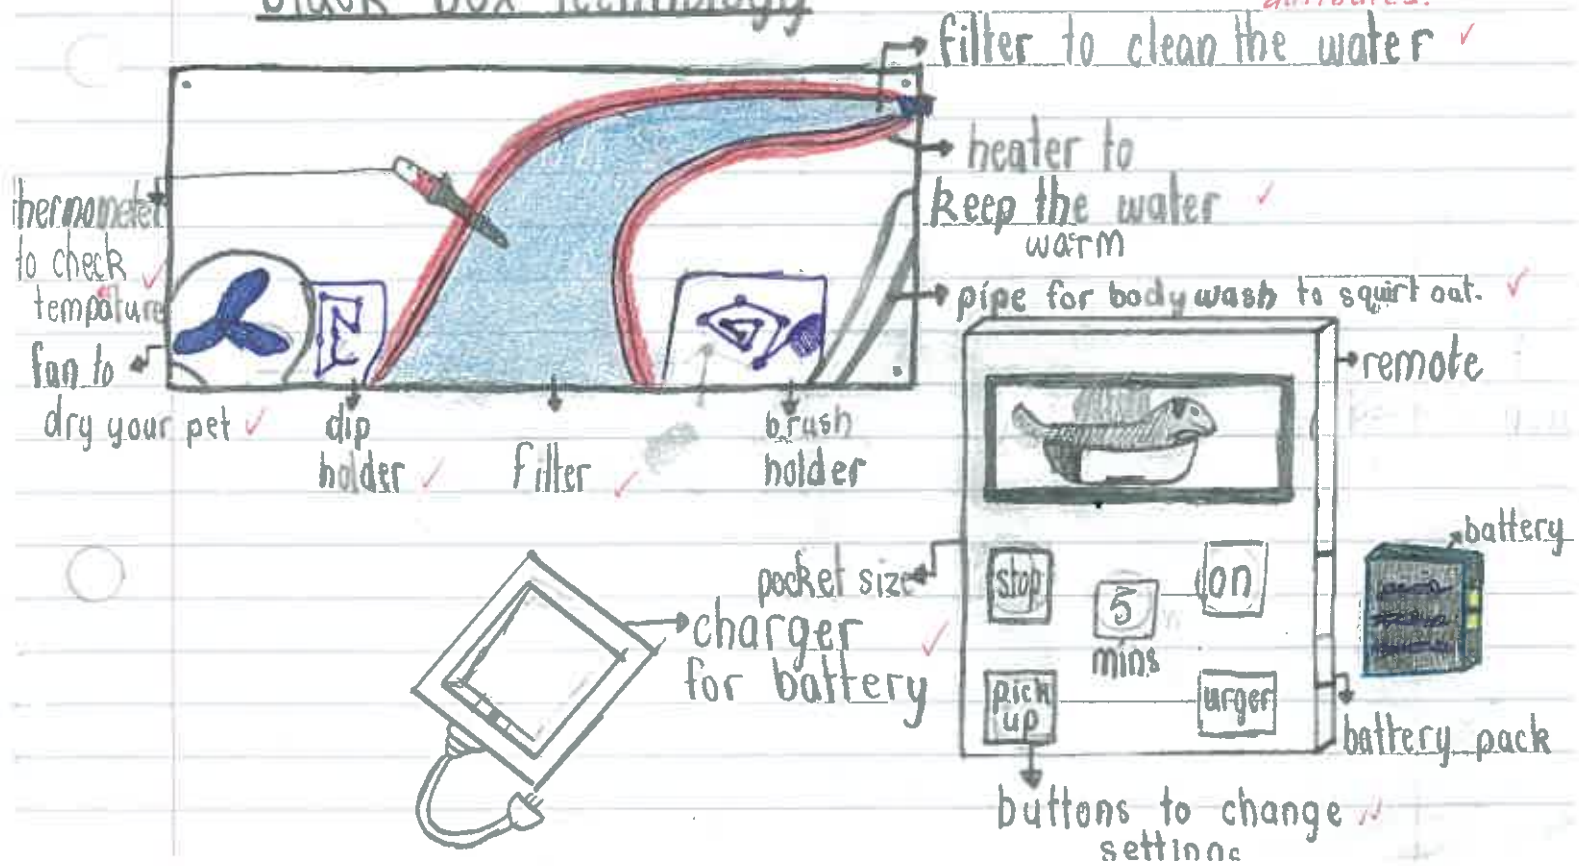

These will be very popular I'm sure!

Pet Scrubber

Excellent detail drawing and labelling the physical and functional attributes.

black box technology

Chore-bot

Are you sick of endless chores? Well here's your solution, the brilliant, brand new beautiful Chore-bot! It is an eco-friendly, 100% reliable, chore-doing robot. With a vast array of functions including a vacuum nozzle, broom, dust pan and rubbish grabber hand there is virtually nothing the flawless machine can't do! Eco-friendly solar panels help to charge it, but as a reliable back up you can always plug it in. The chorebots awesome arms adjust length to suit any chore from folding laundry to just sweeping floors to dusting high shelves. Any rubbish or recycling is snatched up by the rubbish grabber hand, sorted into internal bins, then when the bins are full, chutes empty rubbish into the bins. Chore-bots are so wonderful I can't emphasise how fabulous they are. To programme your Chore-bot simply tap in your instructions to its control panel. All Chore-bots are 50cm high and roll around on four super sturdy wheels. Their light-weight metal bodies are 17kg and are available in four fantastic colours - black, white, silver and rose-gold. Our eco-friendly robots are long lasting and 100% Kiwi made and owned. Chore-bots are available in hard ware stores for \$2499. They have a seven year warranty. If you have any questions go to our website - www.chorebot.co.nz or call our friendly team on 027 378 1114. Don't delay, purchase your Chore-bot today!

Question - great!

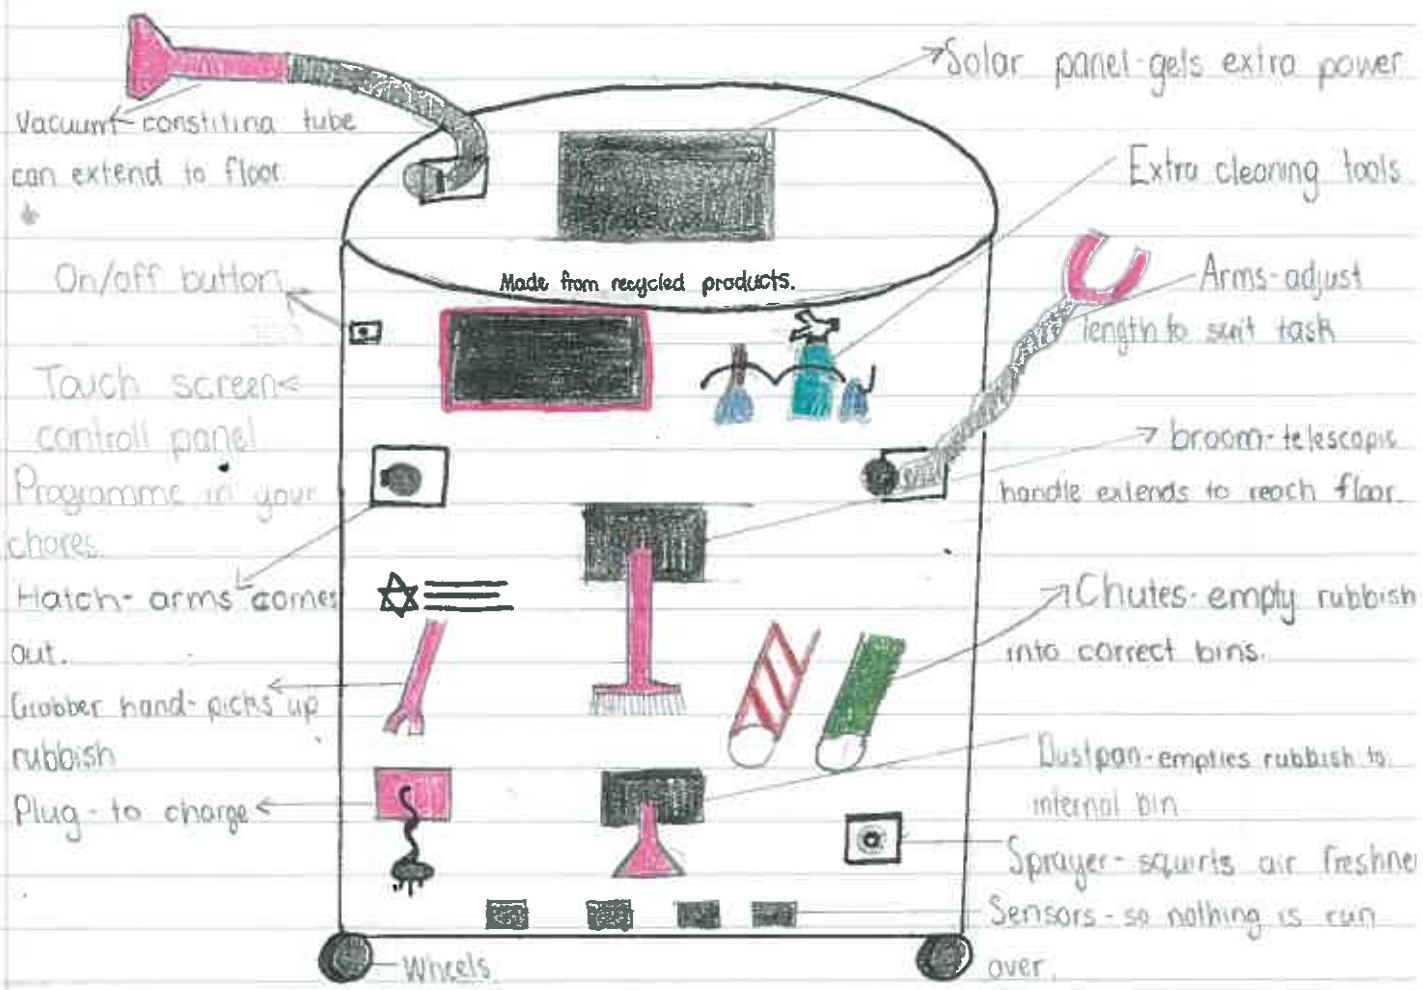

Great vocabulary, features and persuasive language.

Super detail for parts with technology examples
